

Dear Member

It is with great pleasure that I introduce to you our newest member service - **Discount Power**.

Your Credit Union in partnership with Discount Power is offering you an opportunity to save money on your electric bill from CL&P or UI. You will **save up to 10%** on the generation portion of your bill. It is safe, simple and easy to get the benefits from this program.

You may click on this link <http://www.wffcu-power.org/> or bring a copy of your most recent bill into the credit union and we will help you get signed up. In as little as 30 days you will start seeing the savings.

I have enrolled the credit union in the program so that our electric bill at the Hamden office will receive the discount. I have personally enrolled my residence in the program and encourage you to do the same. At a time when gasoline, rent and taxes are going up, every dollar we save is a help in balancing the monthly budget. Each of us can benefit from lowering our costs.

It is important to know that you will not see a change in your bill except for the lower amount due. CL&P or UI will continue to send you a statement each month. If you are on a budget plan you can stay on it. You will still receive service from your current electric company if there is a power outage.

Signing up simply designates to CL&P or UI where they should buy the power you use.

When you deposit cash into your savings account and then withdraw cash at a later date you do not get the same bills back. The same with electric power, what comes through the lines into your home or business does not change only where CL&P or UI buys it.

Please take the time to locate your most recent electric statement now.

This 5 minute task can save you hundreds of dollars each year.

Do not hesitate to call us if you have any questions about the program.

Thank you for letting us serve you.
